? Ask questions   **"Cordova is not available" when running in web browser**

Short description of the problem:

Hi, I am here on ionic-cli 3.13.2 and see the following warnings:

... [14:23:25] console.log: Angular is running in the development mode. Call enableProdMode() to enable the production mode. [14:23:26] console.warn: Native: tried calling StatusBar.styleDefault, but Cordova is not available. Make sure to include cordova.js or run in a device/simulator [14:23:26] console.warn: Native: tried calling SplashScreen.hide, but Cordova is not available. Make sure to include cordova.js or run in a device/simulator [14:23:29] lint finished in 5.73 s

What behavior are you expecting?

no wranings

Steps to reproduce:

1. ionic start blank
2. ionic serve -c

Which @ionic/app-scripts version are you using?

3.13.2

ionic-team/ionic-app-scripts

Answer questions   huxforte

```
ionic cordova run browser
```
 will load those native plugins that support `browser`

> platform.

Cool
